

Product Specification Sheet

Induction Cookers

Item Number: **IC-1800WN**

Description:

Induction cookers utilize 90% of the energy produced compared to 50% used by gas or electric stove tops. The cooker heats the diameter of the pot only, making it extremely energy-efficient while eliminating open flames and exposed burners. This powerful 1800 watt, 120 volt cooker is capable of heating up in as little as 1 minute, making it ideal for use at events such as buffets and banquets.

Features include a stainless steel body, easy-to-clean ceramic top and touch-screen operation for easy use. Includes a built-in timer and a safety auto shut-off and lock. The rear metal guard protects power cord and eliminates overheating.

140°F - 464°F temperature range. ETL listed.

Specifications:

Size: 15-1/2" x 12-3/4" x 4-1/4"

Type: Induction Cooker

O/A Length: 15-1/2 in. (39.5 cm)

Dimensions - L X W X D: 15-1/2 x 12-3/4 x 4-1/4 in.
(39.5 x 32.4 x 10.8 cm)

Case Unit: 4

Sold in Units of: 1
